

## Teachers: Customize Program Content

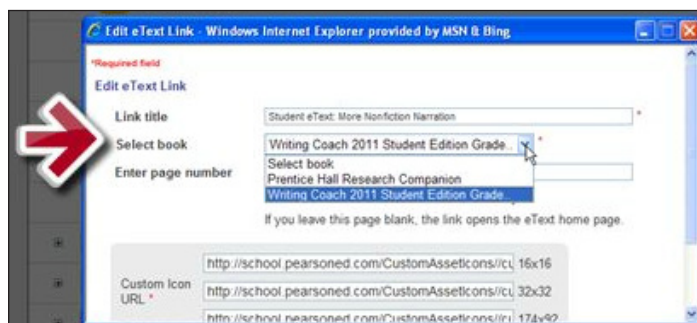

**Introduction** This guide explains how to customize different types of content on SuccessNet Plus.

**Note:** Pearson content varies by product and not all types of content are customized in the same way. Apply this information to the different types of content.

- Customize Pearson Content**
1. Log in to SuccessNet Plus.
  2. Select a product and click **Pearson Content** in the Products and Classes channel to view the Table of Contents on the List view.
  3. Use the filter drop-down lists to change the organization of content to display on the right.
  4. Select an activity and hover over the title to display the down arrow. Click the down arrow to display the Options menu and select **Customize Content**.

**Note:** Customizing Pearson content makes a copy of the content and does not alter Pearson content. The customized copy appears in Custom Content.

- Customize eText Activities**
1. Select an eText activity.
  2. Click the Options menu and select **Customize Content**.
  3. Change the activity title if desired.
  4. If the product has more than one eText, choose which eText opens.

5. Enter the page to display when the book opens.
6. Click **Save**.

**Note:** Do not change URLs for custom icons so that the eText icon appears for your customized version of the activity.

---

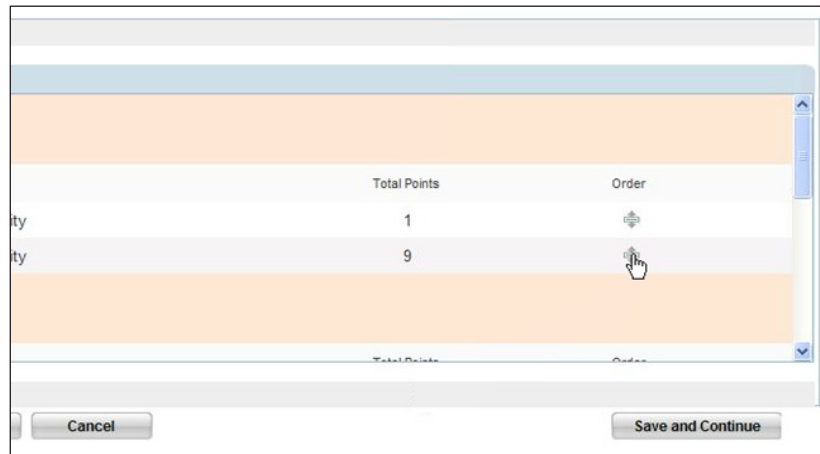

**Customize Link Activities**

1. Select a link activity.
2. Click the Options menu and select **Customize Content**.
3. Change the activity title and description (optional).
4. Enter a time limit for the activity (optional).
5. If the product has more than one eText, choose which eText opens.
6. Click **Save**.

---

**Customize Lessons**

1. Select a lesson.
2. Click the Options menu and select **Customize Content**.
3. Change the activity title and other fields on the Lesson details tab (optional).
4. On the **Lesson content** tab, add, delete, and reorder content by dragging the two-headed arrow to a new position.

5. If desired, add a section and add content from the Content Library to the new section.
6. Click **Teaching Support** to change or add information that appears in the teacher support panel.
7. After adding new content and making changes, click **Save and Return**.

**Note:** To move between tabs, either click a tab or click Save and Continue to move to the next tab.

---

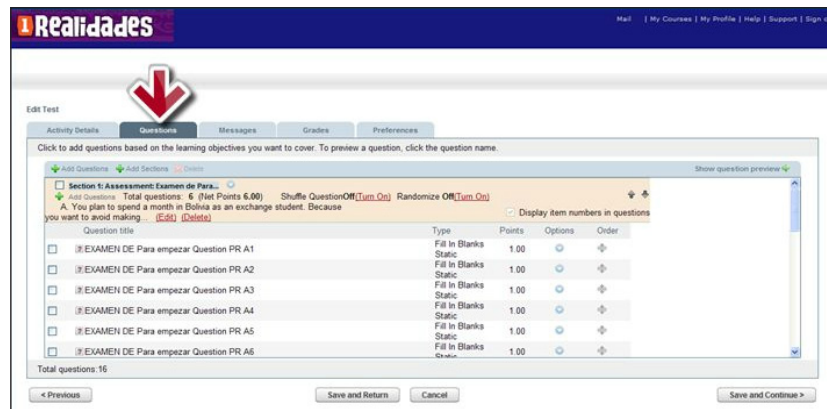

**Customize Editable Presentations**

1. Select a presentation.
2. Click the Options menu and select **Open**.
3. Save the presentation to your computer.
4. Edit and save the presentation.

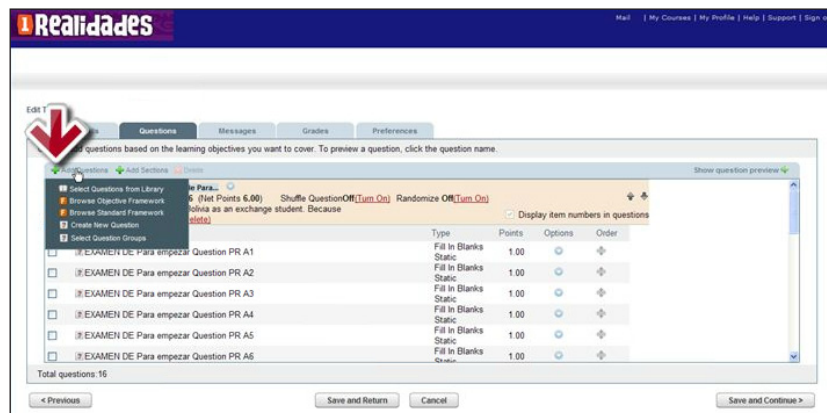

## Customize an Assessment

**Note:** Not all assessments provide these options. To edit, add, and delete digits Math XL questions, click **Launch** at the bottom of the Activity details tab.

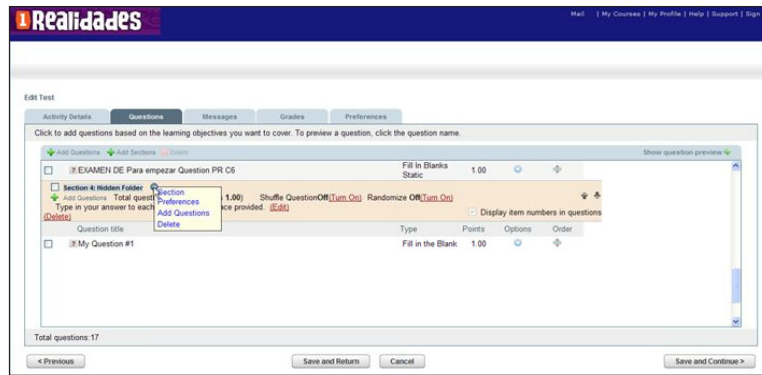

1. Select an assessment.
2. Click the **Options** menu and select **Customize Content**.
3. Change the activity name and add a description on the Activity Details tab (optional).
4. Change the time limit if this is a timed activity (optional).
5. Click a tab or **Save and Continue** at the bottom of the window to move between the tabs.
6. Add, delete, and modify questions or writing prompts on the **Questions** tab.

7. Click **Add Question** within a section to add a question or writing prompt to an existing section. Select a question or writing prompt from the Content Library or create a question. Complete the process based on the type of question selected. Each question type provides different options.
8. Click the top-level green plus sign to add item numbers to a new section.

9. To modify a section, click the Options arrow and make a selection.

10. To delete a question, check one or more items, and then click **Delete**.

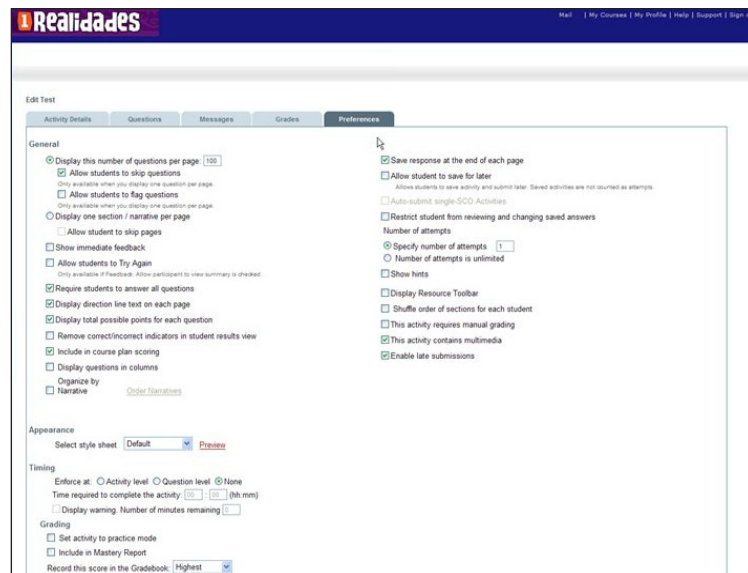

11. Click the Options menu to the right of any question title to edit, delete, or try out the question.

12. To reorder questions, click the double-headed arrow and drag the question to the desired position.

13. The Messages tab provides information to students at the beginning or end of the assessment. Type directly into the text boxes or click the edit HTML link to modify the text appearance.

14. On the Grades tab, you select a grade schema. New grade schemas must be created in Gradebook preferences to see more than the default grade schema.

15. Make desired changes on the Preferences tab.

16. After making changes, click **Save and Return**.

To view customized content, change **Content** from Pearson to Custom. When Pearson content is customized, a folder is automatically created in Custom Content with the program name. Another option is to click **Custom Content** on the product banner on the home page.

This guide explained how to customize content.
