

Teachers: Display Content during Class Instruction

Introduction This guide explains how to display content during class instruction on SuccessNet Plus.

Display Content for Class Instruction

1. Log in to SuccessNet Plus.
2. Click **Pearson Content**.
3. Use the drop-down lists or use search to find specific types of content and display them in the list view on the right.
4. Click the folder titles or plus signs to expand and display the folder contents.
5. Select an activity or lesson. Click the title or move the pointer over the title and click the **Options** menu.

6. Select **Preview**. If the product contains leveled content, another menu appears. Select the level of content to display.

Note: Pearson content varies by product. Pearson content may include interactive lessons, eTexts, worksheets, homework, and assessments. Some products include resources at the top of the Table of Contents to help you get started using your product, such as a Quick Start Guide and a Table of Contents Orientation Guide that explains the product activity icons. Pearson products may also contain teacher guides, lesson plans, answer keys, editable presentations, and editable worksheets. The teacher icon identifies teacher resources that cannot be assigned to students.
