

Tutorial Guide: TeacherEXPRESS

This guide explains how to install TeacherEXPRESS and provides a tour of the suite of time-saving tools for teachers.

About TeacherEXPRESS

LessonView is the power behind TeacherEXPRESS. It includes resources like the following:

- Lesson planner
- Blackline masters
- Teacher's Edition
- Teaching resources
- Web resources

To learn more about using LessonView, please watch the tutorials on www.myPearsonTraining.com.

Installation

The TeacherEXPRESS suite of software comes with two or three CD-ROMs: the Installation Disc and one or two Resources Discs.

Installation Disc

- Installs the different applications, such as LessonView

Resources Disc

- Contains all the PDF versions of the teaching materials for the program, such as the Teacher's Edition as well as all of the ancillaries, transparencies, and workbooks

Once TeacherEXPRESS is installed, the Resources Disc must be in the computer's CD-ROM drive to access the resources.

To install TeacherEXPRESS, follow these instructions:

1. Place the Installation Disc into the computer's CD-ROM drive.
2. Open your hard drive by clicking the My Computer icon.
3. You will see the CD-ROM marked TeacherEXPRESS.
4. Double-click the CD-ROM icon.
5. Double-click the Setup icon.

The installation wizard will install the TeacherEXPRESS software. Click **Next** and answer **Yes** to the series of questions that the installer asks until the installation process is finished.

Getting Started

Two different applications are installed, and there will be two icons on the desktop:

- TeacherEXPRESS
- LessonView

These are shortcuts so the different applications can be launched quickly. To learn more about how to create lesson plans, please watch the LessonView tutorials on www.myPearsonTraining.com.

If TeacherEXPRESS was just installed, take the Installation Disc out of the CD-ROM drive and insert the Resources Disc.

Tour of TeacherEXPRESS
