Exercises, p. 122-124

Globe symbol – p. 123

Real World Connections Projects

Activity Labs, p. T24

Swing of the bat, p. 114-115

To find the chapter projects, go to www.phschool.com, click on "MATH" listed on the left hand side of the web page. Once that is open, look for "Teacher Resources." Click on "Textbook Companion Sites" and then select the course you are working with. Once the textbook you work with is opened, you will see Assessments, which include lesson quizzes, chapter tests and vocabulary quizzes and you will see Real-World Applications, which includes the chapter project as well as some other resources that vary by chapter.
